The Historical Market will take place on Thursday – Saturday, February 4 – 6 and the traditional Jokkmokk Market on Friday – Sunday, February 7 – 9.

Jokkmokk is located abt. 150 kms south of ICEHOTEL and Jukkasjärvi.

Prices to be quoted on request.

ICEHOTEL

Open Dec 10 – April 18

ICEHOTEL is situated in the picturesque village of Jukkasjärvi, 200 kilometers north of the Arctic Circle in Swedish Lapland, on the shores of the River Torne, which flows freely through the unspoiled wilderness.

As winter approaches every Autumn the pure clear water and gentle movement creates crystal clear ice up to 1 metre thick. This unique building material is the source of ICEHOTEL, ICEchurch and the Absolute ICEbar. In fact the entire ICEHOTEL is on loan from the mighty river Torne.

This year the world famous and original ICEHOTEL is creating yet another unique architectural masterpiece, constructed purely from ICE. Construction will begin in November 2009, some time after the first ice has formed and the first layer of magical snow has fallen. The doors to ICEHOTEL will open on Wednesday 10th December 2009 and building work continues into early January.

Staying at ICEHOTEL is an experience utterly unlike other hotel stays - it is an experience of a lifetime as well as an encounter with art and design that will surprise your senses.

ICEHOTEL is created with imagination and hard work, only to melt away under the unforgiving rays of the sun come springtime. All that remains are our impressions, our memories - and our photographs.

**More details and lots of excursions ...
as per attachment.**
